

The logo features the letters 'GC' in a large, bold, grey font with a metallic gradient and a 3D effect. A smaller, blue '2' is positioned to the right of the 'C'. The entire logo is centered within a white horizontal oval that has a dark grey gradient border.The logo consists of a stylized eye icon on the left, composed of a grey outer shape and a blue inner shape. To the right of the icon, the word 'FORESIGHT' is written in a bold, grey, sans-serif font, and the word 'SPORTS' is written below it in a smaller, blue, sans-serif font.

It's a Game Changer.™

For more than fifteen years, the golf industry's leading manufacturers have called upon the engineering team of Foresight Sports to invent and produce dependable and revolutionary tracking solutions for their private use. Only a select few have had access to these proven technologies – until now.

It's Smart.

Never before has a golf technology utilized stereoscopic tracking with the accuracy, ease, and form factor of the GC2. No triggers or marked balls... no cables, computers or calibrations... and no waiting. With an exclusive on-screen ball placement guide, it's ready when you are, and provides immediate feedback of measured launch angles, speed and spin – all with unparalleled precision.

Your game. Our focus.™

It's Flexible.

Use it outdoors, on any surface, in any light. The GC2 provides its own interchangeable light source, and with its exclusive self-leveling technology, it consistently performs with verifiable accuracy on every shot – drives, chips, and putts. Or take it indoors and play in any environment with equally trusted results.

It's Wireless

The GC2 communicates to the player, instructor, club-fitter or public in numerous ways:

- ▶ The on-board LCD backlit panel clearly displays all user-customized launch values.
- ▶ The on-board audio speaker announces measured values with a selection of volume settings.
- ▶ The USB output enables all data to stream into any PC device.
- ▶ Via Bluetooth the GC2 wirelessly transmits all data to a variety of handheld smart devices.

Your game. Our focus.™

It's Integrated.

The GC2 drives an endless selection of software applications – from fitting and training solutions to immersive game play and networked competitions. You can even have your own preferred software integrated with the quality flight measurements of the GC2.

It's Truly Portable.

The form factor of the GC2 is nothing less than revolutionary. It fits into any golf bag. It weighs less than 4 lbs (1.8kg), and has an open-field battery life of more than 8 hours between charges. Place it and play - it's that simple.
